Рекомендації

The logo for GRAPE, featuring the word "GRAPE" in white, uppercase, sans-serif font on a yellow rectangular background.

Maksim Kuzin / ex-Head of Production

We are pleased with the result of the work! FORFORCE can properly estimate the project scope and carry out production even in emergency cases. In addition to the above, the team offers different creative ideas and ways of how to do and optimize the project. FORFORCE takes full responsibility for the projects, develops projects in a quality manner and in due time – this is why they always achieve high results!

AIMBALANCE

Roman Gavrysh / Strategic Director

We were working with FORFORCE Agency from the beginning of its foundation in 2010 till 2012. During this period we implemented a lot of projects related to web-development of any level of complexity. I must admit that FORFORCE was just about the only development agency at that time, and was able to provide high quality products and meet deadlines. We are very satisfied with our cooperation.

The logo for INFORMATIVE, featuring the word "INFORMATIVE" in a bold, black, stylized font with a 3D effect, set against a white background.

Anton Skiter / Creative Director

All challenges offered in the Interactive Lab are unconventional, and they require out-of-the-box solutions, prompt actions, and strict compliance with deadlines. FORFORCE team complied with all these requirements when helping us with our projects: whether it was a presentation for a new plant launch or multitouch installation. FORFORCE always helped us even if they had to manage tight deadlines.

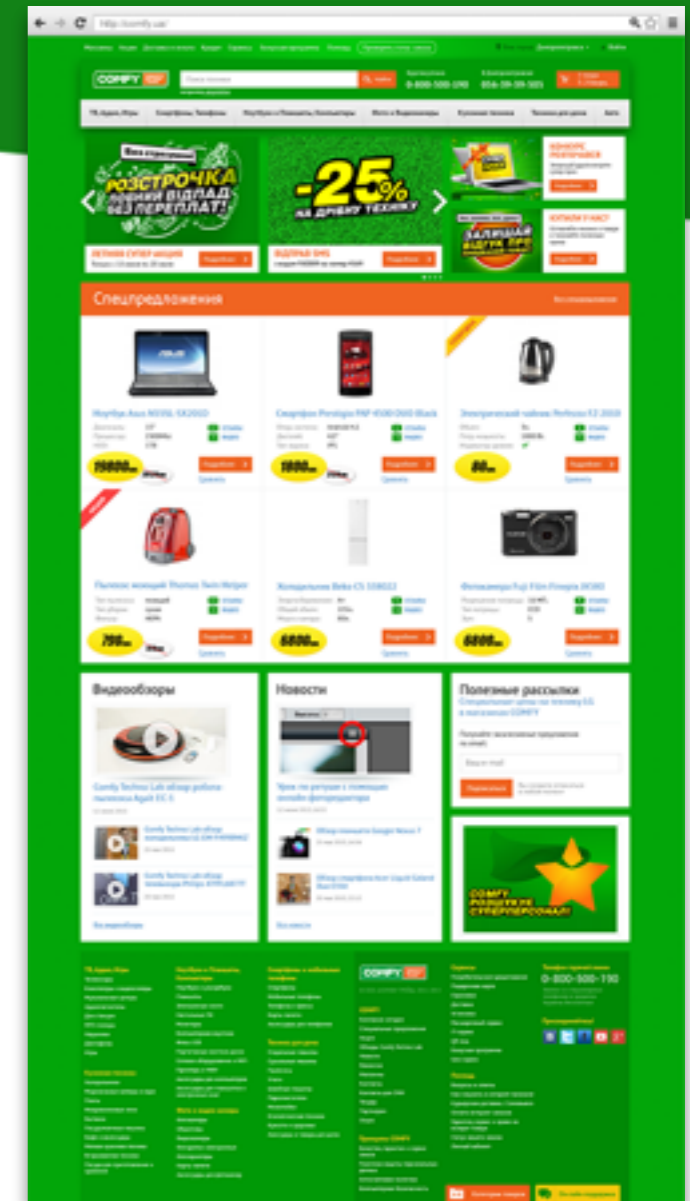

Aleksandr Zhilyayev / Head of Promotion and Development Department

FORFORCE Agency was working successfully on the development of the website Comfy.ua, promotional pages for special promotional offers and interactive banners. We would like to emphasize the work of designers and developers of the interface and express gratitude to the whole project team. All assigned tasks were performed within the agreed time and met our expectations. The best recommendation of COMFY is the fact that we continue our cooperation and regard FORFORCE as a top-priority partner for each new Internet project.
